Subject: Kennecott Utah Copper LLC  
Bingham Canyon Mine M-035-0002  
Notification of Activity – Mine Road Improvements / Construction

Dear Ms. Heppler:

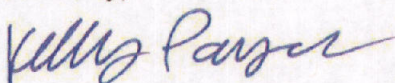

Kennecott Utah Copper LLC (KUC) is submitting this letter to notify the Utah Division of Oil, Gas and Mining (UDOGM) of activity at the Bingham Canyon Mine.

KUC is in the process of improving existing mine service roads and constructing additional mine service roads (see attached Drawing *Notice of Activity, M/035/0002 Mine Road Disturbance / Re-disturbance 2013.04.18*) as a result of the mine slope failure and interruption of normal activities. In the short term these roads will accommodate temporary haulage of ore to the Copperton Mill. Areas not previously disturbed are being field surveyed during the week of April 15, 2014 under the direction of a third-party consultant for avian activity, cultural resources and water features and a report of these surveys will be provided shortly. Growth media salvage will be completed wherever safe and practicable. Public outreach activities are planned.

Reporting to the Division on the status / progress of this mine road activity will be accommodated on the KUC Quarterly updates and Annual Report for M-035-0002.

If this notification is not consistent with your interpretation, please notify us as soon as possible. If you have any questions, please contact Thiess Lindsay at 801.569.6066.

Sincerely,

Kelly Payne  
Manager, Environment
